Hi David,

Apologies for the late email, I just wanted to touch base before I'm off work tomorrow.

I've spoken to our QCAT team and unfortunately they won't have capacity to advise you in regards to your appeal/stay applications and Warrant of Possession this week or next (but may have capacity the week after). I realise that if QCAT makes its decision next week that won't be helpful, so in the mean time I would recommend calling QSTARS if you would like further advice about the process, including the likely timeframe for execution of the Warrant of Possession if the stay application is refused.

I did read that during the QCAT hearing the Department affirmed that they weren't proposing that the eviction would result in homelessness, and referred to alternative accommodation at a place called the "Park", but there's no reference in their subsequent letters or any of the emails you've provided us about that option. Have you had any contact with your community worker about this or other options beyond RentConnect/private rental?

Also I don't think I have a copy of Michael Berkman's letter to Leanne Enoch, or any of the photos (either those referred to by the department or the photos you took on 21 April) – would you be able to shoot those through for our file? Please also shoot through the Department's submissions in reply when you receive them.

Take care and I'll touch base with you early next week.

Kind regards

Jo Sampford
