Thanks David – I just heard that Rebecca contacted Abe last night as well to ask if Michael would be willing to have a chat, so we're just sorting out some details and will contact her soon (as you said, we won't get to speak with her until after her show this morning).

Apologies if you've already sent us this, but who's your current Communify support worker? We'd be happy to contact them as well regarding alternative accommodation. I can also give the Department a ring to try to find out more info about the Park Hotel.

Cheers,
Steph

Subject: Re: APL116-22 - Decision/Directions - 1 June 2022

Hello Steph,

I contacted Rebecca Levingston yesterday and she replied saying she would call me today. I asked that she not put the call live to air as I want to explain the situation fully before it goes public. As she is on air now, I do not expect her to call until after the end of her show at 1100.

I was going to ask if either Michael or Jono would speak to this issue, knowing they would be keen to assist. Your office might even want to take the lead on this by calling the ABC directly and advancing my matter.

There has been no response from the Department yet as to when they will be seeking to have the new Warrant executed. I have emailed them today to learn about this and I copied you and Jono in on that as well. The email also repeats my request for *detailed* information about the Park Hotel or other "alternative accommodation" offered by the Department. I am arranging to have most of my personal possessions moved out of here tomorrow and over the weekend.

I also sent an email to my support worker at Communify asking for further details about the "alternative accommodation" mentioned by the Department. Despite my specific request for information about this about a month ago, the Department did not disclose anything until I read it in their submission to QCAT. That submission contained some very revealing details, particularly that a referral could be made by Communify. I expressed my disappointment to my support worker that he did not take proactive action to provide me with full details and an opportunity to submit a referral for this, knowing the precarious status of my tenancy.

Thanks for your continued advocacy. Keep up the fight!

Regards,
David Barker
