Thanks David, really appreciate that.

Yes, those dot points are for including in our letter to the Minister and QCAT. I think including the FVHSC is a good idea. We'll Cc Mollie into the email containing the letter.

The Ministers line about not evicting people into homelessness is also included in the letter.

I reckon that at this stage, more media is good. I was hoping our media release would have been sent today, but it looks like it's not going out until early next week. I don't really have any suggestion though. Jonno's office might know some potentially friendly journos that might be interested?

And the inspector's name is Corey Allen. He hasn't been very responsive though so I'm not sure how across this he is at the moment.

Cheers,
Steph
