ALERTING ALL UNION MEMBERS!

On the 17th of June David, one of our members, is facing eviction by the Queensland Public Housing system. There is a real chance that if the Public Housing system does not rescind their eviction order that police will forcibly remove David and his possessions from his long term home.

A rally has been called for the morning of the 17th to stop this from happening. We are calling on all our members to come out in force to stand in solidarity with David and to defend his home.

This rally has not been organised by the union, but we should make sure it's a union event.

- Touch One, Touch All!
