Hello John,

According to the Department of Housing's submission to QCAT, Communify is able to make a referral on my behalf for temporary accommodation at the Park Hotel. Can you please make enquiries about this and advise me of the following:

- Is there currently a vacancy at the Park Hotel?
- As it is described as "temporary", what is the maximum length of stay?
- How much is the rent? Do I have to apply for and hand over Rent Assistance?
- How quickly can this be arranged?

Time is of the essence now because QCAT has made a decision to refuse my stay application and a new Warrant of Possession will become active **from next Monday**. While I am still going to continue campaigning to stay here at Taringa, I do need to also continue to explore these "alternatives" put forward by the Department.

I must also place on record my disappointment that you have not been proactive in advising me about this, especially since you have been aware of the precarious nature of my accommodation for more than a month now. I only learned about your ability to refer me to the Park because of the Department's disclosure in their submission, despite my specific request to them two weeks earlier.
