Dear Mollie,

As you are aware, QCAT rejected my application to stay yesterday and ordered the issue of a new Warrant of Possession. I seek information regarding the proposed date of execution of this Warrant for contingencies.

I wish to also take this opportunity to reiterate my request for details about the Park Hotel, which was mentioned in the Department's submission opposing my stay application. You will recall that I previously requested this information on 12 May, and the Department's response, 8 days later, was quite generic in nature and did not adequately address my enquiry.

As of now, I *still* have not received information about the Park Hotel, or other options available to me. This is not due to a "lack of engagement" on my part, as you have often incorrectly asserted.

Please forward detailed information about your so-called "alternative accommodation arrangements" as soon as possible for my consideration.

Regards,

David Barker
